

# Long Wing Feathers

adapted from an Arapaho Song

Voice

Wear-ing my long wing fea-thers as I fly. Wear-ing my long wing fea-thers  
our tail we our tail  
green green

Vo. <sup>4</sup>

as I fly. I cir-cle a-round. I cir-cle a-round. The bound-ries o - of the  
we We We

Vo. <sup>8</sup>

Earth. The bound - less U - ni - verse.  
end - less

This magical song wheels and ascends into the air like a raven or eagle or condor. It is one of the essential songs of the radical faerie tradition. I wonder if the original lyric was “green” and the alternate words “wing” and “tail” are mondegreens.

The two notes for the word “I/we” indicate variants of this song. I learned this song with the lower F note. Some west coast faeries sing the higher A note.
